611 RIVER DRIVE
BUILDING 3, SUITE 310
ELMWOOD PARK, NJ 07407

March 12, 2008

Dear Sir or Madam:

It is with great pleasure that I would like to recommend Minuta Architecture PLLC.

JMR Associates, LLC has worked with Minuta Architecture PLLC on numerous commercial building projects over the years and we continue to enjoy a great working relationship on our most current project.

Minuta Architecture PLLC views each project as unique. The members of the design team gather the information required to fully understand the scope of work in order to develop the most appropriate design solution. They are also fully capable of dealing with the local planning board and following their approved plans through the municipal processes needed to have permits issued.

We were especially impressed with the skills of Minuta Architecture while working on our Little Gym project. Minuta Architecture worked directly with the contractors, tenants and the town to insure the project was completed properly. We were extremely pleased with the outcome of the project. We feel the project was so successful because of the direct involvement of Minuta Architecture.

Please feel free to contact me at 201-796-0005 should you have any questions about our experience with Minuta Architecture PLLC.

Sincerely,

JMR Associates, LLC

Martin S. Kenwood
